IGE FADELE

Principal Full-Stack Software Engineer, Product & System Architect | Web, Mobile, Desktop

Location: Remote, In-Office, and Relocation Ready
Availability: 06:00 - 23:00 UTC+1 (Flexible for international shifts)
Comfortable with: Full-Time, Part-Time employment, or B2B Contract arrangements

Phone & WA: +234 903 2348 435 | **Email:** igefad110@gmail.com | **LinkedIn:** linkedin.com/in/igefadele | **GitHub:** github.com/igefadele | **Portfolio:** **portfolio.igefadele.savadub.com**

PROFILE SUMMARY

Versatile Senior Software Engineer with over 10 years of experience building enterprise-grade web, mobile, CLI, and desktop applications. Proven track record of leading cross-functional teams to deliver high-impact SaaS solutions in Fintech, Legal, AdsTech, eCommerce, and AI sectors. Expert in Node.js, TypeScript, PHP, Laravel, Java, Spring Boot, Go, Gin, Dart, Flutter, with a focus on scalable architecture, AI orchestration, and high-performance frameworks.

EDUCATION

- **Master of Business Administration (MBA)** | Rome Business School, Italy.
- **B.Sc. in Mathematics (2:1)** | Obafemi Awolowo University, Nigeria

PORTFOLIO / PROFESSIONAL EXPERIENCE: ***portfolio.igefadele.savadub.com***

SOME 4 NOTABLE COMMERCIAL PROJECTS

MedQrib (Medicare Discovery & HealthTech SaaS, FinTech, InsureTech – 6-Platform Healthcare Ecosystem) | medqrib.com

CTO & Principal Software Engineer

- **Stack:** Go, Gin, PHP 8.4, Laravel, Filament V5, Savv, PostgreSql, React.js, Chart.js, Redis, Horizon, AWS, S3.
- **Achievements**
    - **Product & System Architecture:** Architected an end-to-end healthcare technology ecosystem of 6 interconnected platforms with federated identity management (SSO), uniting pharmacy management, hospital operations, underwriting, and real-time emergency medical discovery.
    - **Infrastructure & Systems:** Designed and deployed high-availability cloud infrastructure on AWS (S3, Redis, Horizon), establishing automated deployments, secure healthcare data handling, and fault-tolerant background queue processing.
    - **Full-Stack Development & Engineering Leadership:** Led a cross-functional team of 5+ engineers, writing scalable code in Go, Gin, PHP, Laravel, and React.js to power complex healthtech and fintech capabilities.

Saviliate (Affiliate & Attribution SaaS – Multi-Tenant Marketing & Escrow Platform) | saviliate.com

CTO & Principal Software Engineer

- **Stack:** Laravel 13, PHP 8.4, Node.js, TypeScript, Express.js, React.js, PostgreSQL, Redis, Savv.
- **Achievements**
    - **Product & System Architecture:** Architected a multi-tenant marketing and affiliate attribution SaaS with automated tracking and escrow systems, reducing customer acquisition cost (CAC) by 95% and affiliate management costs by 75%.
    - **Infrastructure & Systems:** Designed and managed robust cloud infrastructure using Redis and PostgreSQL, ensuring high-throughput real-time event tracking and automated payout orchestration.
    - **Full-Stack Development & Engineering Leadership:** Led a team of 5+ developers, authoring clean, maintainable full-stack code across Laravel, Node.js, TypeScript, Express.js, and React.js.

LawSava (Legal Tech SaaS – Practice Management System for Global Law Firms) | lawsava.com
CTO & Principal Software Engineer

- **Stack:** Nest.js, Node.js, Laravel 13, PHP 8.4, React.js, Redis, Horizon, MySQL, S3, Savv..
- **Achievements**
    - **Product & System Architecture:** Architected a global legal practice management platform and automated communication workflows, reducing manual paperwork by 20+ hours per week and boosting reporting efficiency by 60%.
    - **Infrastructure & Systems:** Built secure, highly available backend infrastructure with Nest.js, Redis, Horizon, and MySQL on AWS, accelerating client communication response times by 500%.
    - **Full-Stack Development & Engineering Leadership:** Managed a team of 5+ software engineers, developing scalable APIs and responsive frontends using Node.js, Laravel, and React.js.

Savadub Institute & LMS (EdTech & SaaS – Enterprise LMS & Scientific Computing Labs) | institute.savadub.com
CTO & Principal Software Engineer

- **Stack:** Java, Spring Boot, Laravel, PHP, MySql, Redis, S3.
- **Achievements**
    - **Product & System Architecture:** Architected an enterprise LMS platform bridging scientific research, mathematical computing, and audited enterprise architectures for hands-on production and laboratory environments.
    - **Infrastructure & Systems:** Configured scalable cloud hosting and data persistence layers on AWS, MySQL, and Redis, ensuring secure auditing and uninterrupted access to training systems.
    - **Full-Stack Development & Engineering Leadership:** Developed high-performance backend services and frontends using Java, Spring Boot, Laravel, and PHP, adhering to rigorous software engineering standards.

SOME 4 MOBILE APP PROJECTS

Brekete Connect & Brekete Chat Apps | *LINK, LINK*
Full-Stack Software Enginner

- **About:** Community & Instant Messaging apps for the Brekete Family and Human Rights Foundation Abuja and Worldwide.
- **Stack:** Dart, Flutter, GetX, Kotlin, Swift, Play Store, App Store.

Broadstreet Radio | *LINK*
Full-Stack Software Enginner

- **About:** Multimedia mobile apps.
- **Stack:** Dart, Flutter, GetX, Kotlin, Swift, Play Store, App Store.

Stream Fintech & Business Manager App | *LINK*
Full-Stack Software Enginner

- **About:** Business Management & FinTech App for SMEs.
- **Stack:** Dart, Flutter, GetX, Kotlin, Swift, Play Store, App Store.

Raitcare Health App | *LINK*
Full-Stack Software Enginner

- **About:** HeathTech and Telemedicine, Ecommerce, Fertility Tracker
- **Stack:** Dart, Flutter, GetX, Kotlin, Swift, Play Store, App Store.

SOME 4 OPEN-SOURCE PROJECTS

GRC Crest (Enterprise GRC Command Center) | grccrest.savadub.com | github.com/igefadele/grc-crest
Creator & Maintainer

- **About:** A centralized AI-powered orchestration hub that helps companies automate their security in a continuous design and automate GRC actions using AI as code, saving up to 90% of the time spent on manual tasks and giving Executives a turnaround at 10x. GRC Crest is the only GRC platform built the way software engineers build infrastructure – as code, in pipelines, monitored in real-time, and automated end-to-end. 98.3% of all compliance events are handled without human intervention
- **Stack:** Nest.js, React.js, Next.js, TypeScript, Node.js, Vercel AI SDK, Socket.io, Websocket, Anthropic Claude, OpenAI GPT-4o, Custom LLM.

Savv Web Framework | savv.savadub.com | github.com/igefadele/savv_framework
Creator & Maintainer

- **About:** Creator and maintainer of an open-source, zero-configuration PHP web framework with secure-by-default runtime profiles designed to eliminate common OWASP Top 10 vulnerabilities, with PWA and SSG-feel features built in, supporting AI-driven web development out of the box, for building lightning-fast and highly performant business websites and apps at scale, reducing setup and optimization time for any project by up to 95%.
- **Stack:** PHP 8.4, JavaScript

JavaEntPro (Ent. Java 21 & Spring Boot 3+ Backend Architecture Blueprint) I *github.com/igefadele/javaentpro*
Creator & Maintainer

- **About**. It's a production-hardened, cloud-native reference implementation & starter Archetype for mission-critical systems. Any enterprise team, senior engineer, or startup looking to build a high-performance, audited backend can fork or clone this repository and immediately kickstart their project. It encapsulates battle-tested enterprise design patterns, adhering strictly to global financial standards, clean architecture principles, and the Twelve-Factor App methodology.
- **Stack:** Java 21, Spring Boot 3.3

MediPulse AI (Ent. Clinical Triage & Telemedicine Intake Intelligence) I *github.com/igefadele/medipulse-ai*
Creator & Maintainer

- **About**: A production-ready, offline-resilient microservice combining deterministic physiological safety gates with domain-specialized SLM (QLoRA) streaming. It solves the critical failure modes encountered by enterprise health systems, HMOs, and telemedicine providers when they attempt to automate patient intake using off-the-shelf frontier LLMs (such as raw GPT-4o or Gemini APIs).
- **Stack:** Python 3.10+, FastAPI, Meta Llama 3, PEFT QLoRA 4-bit, PyTorch 2.2+, Docker Multi-Arch, Docker Multi-Arch, OpenAPI 3.0.

CORE SKILLS

- **Languages & Frameworks:** PHP (Laravel, Savv, Symfony), Java, Spring Boot, Node.js (Nest.js, Express.js, React.js, Next.js, Angular.js, Vue.js), TypeScript, Javascript, , Dart, Flutter, Java, Go (GoLang), Gin, Kotlin, Python, FastAPI, Swift, WordPress.
- **Databases & Cloud:** PostgreSQL, MySQL, MongoDB, Firebase, Redis, AWS (S3, EC2, LightSail, CloudFront, Lambda, etc), CloudFlare, DigitalOcean, Google Cloud Platform (GCP), Azure, Supabase, Appwrite.
- **Tools:** Docker, Claude Code, Codex, Copilot, GitHub, Codemagic, Caddy, Nginx, LiteSpeed, Apache, VS Code, Android Studio, Xcode, LangChain, etc.
- **Engineering:** Git & Version Control, AI/LLM Integration, System Design Architecture & Patterns (MVC, MVVM, etc), CI/CD Pipelines (GitHub Actions, Codemagic, Jenkins, etc.), Engineering Principles (SOLID, KISS, DRY, TDD, DDD, etc), Code Testing (Feature Testing, Unit Testing, Widget Testing, Manual Testing, Automated Testing), Project Documentation (Swagger, in-project docs, etc)
- **Leadership:** Product Management, Technical Architecture, Agile Methodologies, Cross-functional Team Leadership.
- **And More:** Dependency Injection (GetX, Get-It, InversifyJS, Koin, etc.), Reactive Programming (GetX, RxDart, RxJS, etc.), Streams, Asynchronous programming, App Distribution and publishing (on Google Play Store and Apple App Store, Amazon App Store), Object-Oriented Programming (OOP), Creating & Using Third-party SDKs, RESTful APIs, Data Analytics, and more.

PROFESSIONAL CERTIFICATIONS & TRAINING

- **Executive Business Leadership Development Certificate** | Rome Business School | Sept. 2022 | *CERT.*
- **Nano-Degree in Data Analysis** | Udacity | October 2022 | *CERT.*
- **Certificate in Business Analytics** (professional training programme) | HiBreed Station, Vancouver, Canada | August 2022 | *CERT.*
- **Certificate in Marketing Analytics** | University of Virginia – Darden School of Business (Through Coursera) | April 2020 | *CERT.*
- **Digital Product Management Masterclass** | Product School | April 2020 | *CERT.*
